

# How to Login to Nuance Healthcare's Clintegrity 360 Encoder

- On the first page of your class, the page that you see before you choose "course" or "tests," you'll find a User ID and password to be used only to access Nuance Healthcare's Clintegrity 360 Encoder. The ID and password are not yours exclusively; all students in your class are using the same login. **Therefore, DO NOT change the password, as it would change for all students in your class.**
- Go to the Web site <https://ahima.nuancehce.com/topaz/main.do>
- Type in the User ID and Password.

**IMPORTANT:** The encoder system is case-sensitive, so **BE VERY CAREFUL** to enter the User ID and Password exactly as you see it on the first page of your class.

Click **Sign In**. (If you have problems with your login information for the Quantim<sup>®</sup> system, please submit a [Customer Support Request Form](#), and an AHIMA Customer Relations Representative will assist you.

## LOGIN SCREEN

Nuance Quantim

Welcome to Nuance Quantim, the integrated solution for health information professionals. Inside you'll find sophisticated, easy to use tools, accessible anywhere, any time. Sign in to start using Quantim or to contact Client Support.

- You are now on the Home page. **IMPORTANT:** This screen gives you the option to change the password. **NEVER CHANGE IT!** Because you are sharing the password with other students, it is extremely important that you keep the password just as we gave it to you.

## HOME SCREEN

Nuance Quantim

Hello c40169, you are signed into Quantim, version 13.1.1.4 on hce-qtim-ahima.

You have access to Facility Coding.

You belong to Group(s) CBFacilityCoders.

You have installed NCD/LCD Version: June 2013#1
